

Bassett Project Link

Welcome Back to School:

As we start another year at **Bassett Project Link**, let me welcome back our students and families from last year and those just joining us. Last year was a terrific one filled with fun activities and new ways of doing a few things. This year, without a doubt will be just as wonderful.

Each day that your child attends Bassett Project Link they will have the opportunity to participate in activities that are both **physical and mental, competitive and cooperative**. They will even have the opportunity to work on their **homework**,

with teachers at the ready to lend a hand.

During our outside and gym time students will have the opportunity to play individually or in a group organized activity. At times they will be broken up by age group or interest level. At all times we foster **good sportsmanship and cooperation**.

When **organized activities** are built into the schedule we ask that **ALL** students try their best to participate in the craft, activity or game. When this activity is a **movie**, students are asked to watch **the first few**

minutes while snacks or treats are being handed out then they may sit **quietly** and participate in **another activity**.

In the Computer Lab students are to be respectful of the school equipment and visit **appropriate websites**. They should not give out **e-mails** or **passwords** to programs or game sites.

At times students will have their choice of Centers to include, our **Lounge with books and music, Art, Puzzles & Games, Blocks or Creative Play**.

Be on the alert for notes about movies or activities as the next theme approaches. At times students will have the opportunity to **bring in items from home** to help celebrate the theme.
